Letter of Recommendation for STATE ROOFING COMPANY.

We just had our roof re-shingled and some interior repair of water damage due to hail storm. Our Windstorm Policy covered most of the cost less a deductible. What we thought was going to be a "hassle" turned out very smooth and compatible with all parties. The Windstorm Insurance person, Chip DeVilbiss was most helpful in explaining the claim procedure and paper work involved.

However, the "folks" at State Roofing Company were great to work with. They did what they said they would do, and everything was handled in a very professional way. How surprised we were, that they completed the roof in one day and the inside done on the second day. Chuck and John Giffin coordinated all their staff in a very acceptable manner. They understand the complex requirements of Texas Windstorm Insurance.

My wife and I would be very happy to discuss any details about the Job and express how happy we were to have selected State Roofing Company.

Sincerely,

James E. Espey
